SHIVA ENGINEERING WORKS

Oil Field Equipments
And Engineering Products

About Us

Shiva Engineering Works is a business entity based out of Faridabad (Delhi/NCR), established in 2009. We are engaged in the production & distribution of a diverse range of oilfield equipment and other Industrial Products. We are recognized as a trusted Manufacturer, Exporter and Supplier of Flanges, Crosses and Tees, Spools, Hammer Union, Manifolds, Swivel Joints, and Ring Joint Gasket. Maintaining quality is the foremost priority of Shiva Engineering Works. Our skilled and experienced employees deliver the best in providing the best products to the clients that perfectly meet their need. We make use of highest grade raw material that we procure from the reliable manufacturers. After going through several quality tests, all products are properly packed in Wooden Boxes or Iron Containers to assure safe transit.

We have built-up a futuristic infrastructure in Faridabad that has spread over a vast area. Our infrastructure comprises of several units such as

- Manufacturing Unit
- Warehouse Unit
- Quality Department

The company has carved a niche in the national market. We are also determined to accept the several challenges of the industry and to meet the growing demands of the various customers.

By dealing with transparency and maintaining ethical practices, we have developed cordial relations with numerous clients. With a well established supply chain system, we assure on time deliveries to the clients. Our clients have always been extremely satisfied with the quality and range of the products that we deliver.
